TECH STACK

- React 19, TypeScript, JavaScript
- Next.js
- Angular (older versions)
- TanStack Router and Query
- Zustand, Redux, RxJS
- React Hook Form, Zod
- HTML5, CSS3, SCSS
- Tailwind CSS v4, Styled Components
- shadcn/ui, Material UI, Ant Design
- i18next
- REST APIs, GraphQL

TESTING AND TOOLS

- Vitest, Jest, Testing Library
- Playwright, Storybook
- Vite+, Node.js, npm
- Git, GitHub, GitLab, Bitbucket
- CI/CD, Docker
- Cloudflare, Vercel, Azure
- Web performance, Core Web Vitals
- WCAG
- Scrum, Agile
- Jira, Azure DevOps

AI-ASSISTED DEVELOPMENT

- Claude Code, Claude Design
- ChatGPT, Figma Make
- Gemini API

UX AND UI

- UX audits, user research
- Usability testing
- Information architecture
- Wireframes and mockups
- Prototyping, design systems
- Figma, FigJam

LANGUAGES

Polish — native
English — B2

ABOUT ME

Front-end developer and UX/UI designer with 10 years in product teams: 6 years of React and Angular and 6 years of UX/UI design, including 2 years combining both roles. I know the whole process, from user interviews to tested production code. In the last year I designed three AI products for pharma and enterprise clients. I write code both by hand and with AI tools such as Claude Code.

SELECTED PROJECTS

DriveThruRPG redesign

2026 · self-initiated

Heuristic UX audit of one of the biggest tabletop-RPG marketplaces (87 insights across 6 pages), a shadcn/ui design system with light and dark tokens, 12 mockup screens, and the redesign built as a working React storefront on a mock API.

- **Build:** React 19 and TypeScript, TanStack Router and Query, Zustand, React Hook Form and Zod (every API response validated), Tailwind CSS v4 and shadcn/ui.
- **Validation:** usability test with 5 RPG players, live site vs redesign: time to find a title 175 s → 30 s, task success 75% → 100%, SUS 44 → 84.
- **Quality and delivery:** Vitest and Testing Library, EN/PL i18n, accessibility, Cloudflare Workers.

EXPERIENCE

Senior UX/UI Designer @ Craftware

2022 – Oct 2026
part-/full-time

AI products for pharma and enterprise clients: report generation, data insights and sales assistance; user interviews on several projects, flows and design systems (clients confidential).

Also: data platforms and e-commerce UI on custom design systems, Angular front-end support. Responsible for recruitment (dozens of interviews) and technical estimates for 3–5 projects.

Ran a small UX/UI company with two designers working mainly for Craftware, and later took over part of the projects myself. 2 years mentoring 3 UX designers, including those two.

EDUCATION

Graphic Design, master's studies
WSTI Katowice
2026 – 2028, in progress

Graphic Design, first-cycle studies
Specialisation: Game Design
WSTI Katowice
completed 2026

COMMUNITIES

Imaginarium RPG
RPG content creator and illustrator

ACTIVITIES

Drawing workshops and talks
Machina Futura (2024–26) and other RPG and fantasy events

INTERESTS

Psychology, 3D art, photography, backpacking

EXPERIENCE, CONTINUED

UX/UI Designer @ ITTI
2023 – 2025

Complex workflows and data-heavy interfaces: research, UX audits, prototypes, design systems and branding.

- **Warehouse and production tracking:** scanning and tracking materials from warehouse through production; high-visibility UI for large touch screens.
- **Waste management panel:** data-heavy operations dashboard bringing all material data into one place.
- **Text transcription and classification:** complex review workflows; plus a parking-map proof of concept.

Figma · Photoshop · Illustrator · custom design systems

Front-end Developer and UX/UI Designer @ BlockchainWares
2020 – 2022

One dashboard bringing fiat and crypto together: financial data from multiple sources in one view, designed and built by me end to end.

- **Front-end:** built and maintained React web apps, translating designs into responsive, functional interfaces; unit tests in Jest.
- **UX/UI:** wireframes, high-fidelity mockups, interactive prototypes and design system.

React · TypeScript · Jest · Git · Ant Design · Adobe XD

Front-end Developer @ JCommerce
2016 – 2022

Primarily React, plus Angular, on outsourced projects (clients confidential):

- **Modular automotive platform** (~2.5 years): built two modules in React and Redux with tests, in Scrum; grew from junior to regular.
- **Large Polish e-commerce platform** (~1.5 years): React with unit testing, in Kanban.
- **Transplant coordination system:** Angular panel for public healthcare, moving paper documentation into one system.
- **Also:** a UK sports betting platform in React; a Firefox extension connecting a watch with a web app.
- **Mentoring:** 1 year mentoring 5–7 front-end developers on technical skills and best practices.

React · Redux · Angular · TypeScript · RxJS · SCSS · REST APIs · RTL · Jasmine · Scrum · Kanban

OTHER PROJECTS

RPG books @ Imaginarium RPG
2022 – now

Illustrations, visual assets and print-ready layouts for a series of tabletop RPG books: 7 published, 2 in progress.
