Paulina Targosz.

Front-end Developer · UX/UI Designer

Front-end developer with 6 years of React & Angular development and 4 years in UX/UI design – I understand how products are built, from research and design systems to tested, production code. After several years focused on UX/UI, I'm returning to frontend development – building production-style React apps with a modern stack (**TypeScript, TanStack, Zod, Tailwind, Vite+**) and an **AI-assisted, vibe-coding workflow** with Claude Code.
