UX RESEARCH

- UX audits, heuristic evaluation
- User research, usability testing
- Quantitative research, A/B tests
- Journey maps, personas
- Competitor analysis
- Information architecture, user flows
- Discovery and stakeholder workshops

AI PRODUCT DESIGN

- Chat and conversational UI
- Copilot-style side panels
- Reviewing and editing AI output
- Uncertainty and explainability

UI AND VISUAL DESIGN

- Design systems, tokens, variables
- Ant Design, Material Design
- Lightning Design, shadcn/ui
- Custom client design systems
- Web and mobile design
- Wireframes, hi-fi mockups, prototypes
- Accessibility (WCAG)
- Data visualization
- Design QA, developer handoff
- Branding, illustration

TOOLS

- Figma, FigJam, Miro, Mural
- Adobe XD, Photoshop, Illustrator
- Claude Code, Claude Design
- Figma Make, ChatGPT
- Google Analytics, Hotjar
- Maze, UserTesting
- Jira, Confluence
- Scrum, Agile

FRONT-END

- React, TypeScript, Next.js
- Angular (older versions)
- HTML, CSS, Tailwind CSS
- shadcn/ui, Material UI
- Storybook, Playwright

ABOUT ME

UX/UI designer with 10 years in product teams: 6 years of UX/UI design (research, UX audits, design systems and AI products for pharma and enterprise clients) and 6 years of front-end development, including 2 years combining both roles. I design interfaces that developers can build, and I can prototype them in code myself. My latest case study, a marketplace redesign tested with 5 users, raised SUS from 44 to 84.

EXPERIENCE

Senior UX/UI Designer @ Craftware

2022 – Oct 2026
part-/full-time

AI products for pharma and enterprise clients: report generation, data insights and sales assistance; user interviews on several projects, flows and design systems (clients confidential).

Also: data platforms and e-commerce UI on custom design systems, Angular front-end support. Responsible for recruitment (dozens of interviews) and technical estimates for 3–5 projects.

Ran a small UX/UI company with two designers working mainly for Craftware, and later took over part of the projects myself. 2 years mentoring 3 UX designers, including those two.

UX/UI Designer @ ITTI

2023 – 2025

Complex workflows and data-heavy interfaces: research, UX audits, prototypes, design systems and branding.

- **Warehouse and production tracking:** scanning and tracking materials from warehouse through production; high-visibility UI for large touch screens.
- **Waste management panel:** data-heavy operations dashboard bringing all material data into one place.
- **Text transcription and classification:** complex review workflows; plus a parking-map proof of concept.

Figma · Photoshop · Illustrator · custom design systems

Front-end Developer and UX/UI Designer @ BlockchainWares

2020 – 2022

One dashboard bringing fiat and crypto together: financial data from multiple sources in one view, designed and built by me end to end.

- **Front-end:** built and maintained React web apps, translating designs into responsive, functional interfaces; unit tests in Jest.
- **UX/UI:** wireframes, high-fidelity mockups, interactive prototypes and design system.

React · TypeScript · Jest · Git · Ant Design · Adobe XD

Front-end Developer @ JCommerce

2016 – 2022

Six years building React and Angular apps for e-commerce, public healthcare, automotive and sports betting; grew from junior to regular and spent 1 year mentoring 5–7 front-end developers.

LANGUAGES

Polish — native
English — B2

EDUCATION

Graphic Design, master's studies
WSTI Katowice
2026 – 2028, in progress

Graphic Design, first-cycle studies
Specialisation: Game Design
WSTI Katowice
completed 2026

COMMUNITIES

Imaginarium RPG
RPG content creator and illustrator

theNoyArt
Illustration portfolio and live drawing streams, with tutorials coming up
ArtStation ↗ YouTube ↗

ACTIVITIES

Drawing workshops and talks
Machina Futura (2024–26) and other RPG and fantasy events

Exhibitions
RPG illustrations at Punkt11, Bielsko-Biała (2025) and Spirala Cafe (2021)

INTERESTS

Psychology, 3D art, photography, backpacking

SELECTED PROJECTS

DriveThruRPG redesign

2026 · self-initiated

End-to-end redesign of one of the biggest tabletop-RPG marketplaces, from heuristic evaluation to a working product.

- **Research:** heuristic audit against Nielsen's 10 heuristics: 87 insights across 6 key pages, prioritised into critical fixes, improvements and ideas.
- **Design:** sitemap, wireframes, a shadcn/ui design system with light and dark tokens checked for WCAG contrast, and 12 mockup screens.
- **Validation in code:** the redesign built as a clickable React storefront, so flows can be tested, not only drawn.
- **Validation:** usability test with 5 RPG players, live site vs redesign: time to find a title 175 s → 30 s, task success 75% → 100%, SUS 44 → 84.

HEMA shop: redesign proposal

2026 · not implemented

Platform comparison, UX audit (19 fixes, 7 high priority), a 4-step sword configurator and a clickable prototype of key pages.

Case study ↗ | Figma ↗

Personal portfolio website

2026 · live

Explored in Claude Design, rebuilt in React and TypeScript on Vite+ and Tailwind CSS: two themes, EN/PL and an AI chat assistant on the Gemini API.

OTHER PROJECTS

RPG books @ Imaginarium RPG

2022 – now

Illustrations, visual assets and print-ready layouts for a series of tabletop RPG books: 7 published, 2 in progress.
